# tiles beyond extraor dinary

**Nanda Tiles began as an artistic project founded by us, a few people who passionately believe in beautiful and unique tile. We combine artisanal and industrial techniques to achieve modern tiles with a hand-crafted and vintage feel. Since the beginning we have set ourselves apart from other tile manufacturers by focusing on the artisanal side of production, not wanting to lose our artistic principles to mass production. Our main focus is small format ceramic wall tiles and porcelain floor and pool tiles. Our products are characterized by unexpected and unique finishes, vintage, aged and manual effects. Special weathering techniques on the surface and edges lend our collections the special patina of old tiles. We use many different graphics and firing techniques, and the fact that each tile is different and shaded is intentional. These are all features added to provoke an antiqued look and accentuate the beauty of our tiles. This is part of their charm and is reminiscent of encaustic, zellige and reclaimed tiles of the past. These are small, but important, details which make our tiles special. We pride ourselves on the tiles we manufacture here in Spain, perfectly suited to all styles, including your own.**

Nanda Tiles empezó como un proyecto artístico fundado por nosotros, unas pocas personas quienes creemos apasionadamente en la cerámica bella y única. Combinamos técnicas artesanales e industriales para conseguir azulejos modernos con un toque antiguo. Desde el principio nos hemos diferenciado de otros fabricantes de azulejos al centrarnos en el aspecto artesanal de la producción, ya que nunca hemos querido perder nuestros principios artísticos en favor de la producción a gran escala. Nos especializamos en los azulejos pequeños decorativos de revestimiento y en el porcelánico para pavimento y piscinas. Nuestros productos se caracterizan por tener acabados inesperados y únicos que buscan conseguir un aspecto vintage y un efecto manual. Aplicamos técnicas especiales de desgaste en la superficie y en los bordes de las piezas que otorgan a las colecciones el acabado especial propio de azulejos antiguos. Utilizamos muchas gráficas y técnicas de cocción diferentes, y buscamos que cada azulejo sea distinto y tenga diferentes tonalidades. Estas son características añadidas intencionalmente para provocar un aspecto envejecido y resaltar la belleza de nuestros azulejos. Forma parte de su encanto y recuerda a los azulejos zellige y a las baldosas de cemento hidráulico del pasado. Todo esto son detalles pequeños, pero importantes, que hacen que nuestros azulejos sean especiales. Estamos orgullosos de los azulejos que fabricamos aquí en España, perfectamente adaptados a todos los estilos, ¡incluido el tuyo!

*Nanda Tiles a démarré comme un projet artistique que nous avons nous-même fondé, quelques personnes à peine passionnément convaincues dans la création de carreaux à la fois beaux et uniques. Nous combinons techniques artisanales et industrielles afin d'obtenir des carreaux modernes ayant une touche manuelle et vintage. Dès le début, nous nous sommes démarqués des autres fabricants en mettant l'accent sur l'aspect artisanal de la production, nous n'avons en effet jamais souhaité favoriser la production à grande échelle au détriment de nos principes artistiques. Nous sommes spécialistes du revêtement céramique en petits formats et du grès cérame pour sols et piscines. Se caractérisant par leurs finitions inattendues et uniques, nous cherchons dans nos produits à obtenir un look vintage et un effet artisanal. Nous appliquons des techniques spéciales de vieillissement en surface et sur le bord des pièces qui confèrent aux collections la finition particulière typique des carreaux anciens. Nous utilisons de nombreux graphiques et techniques de cuisson différents, et nous cherchons à ce que chaque carreau soit différent et présentent différentes nuances. Ce sont des caractéristiques ajoutées intentionnellement afin de donner un aspect vieilli et mettre en valeur la beauté de nos carreaux. Faisant partie de son charme, il n'est pas sans rappeler les carreaux de zellige et les carreaux de ciment hydraulique d'autrefois. Bien que tous ces détails soient petits, ils sont néanmoins importants rendant ainsi nos carreaux spéciaux. Fiers de nos carreaux fabriqués ici en Espagne, tout à fait adaptés à tous les styles, y compris le vôtre !*

REVESTIMIENTO / WHITE BODY GLAZED WALL TILE / FAÏENCE

White body, glazed, double-fired ceramic wall tile with an absorption of over 10%. Each piece is unique. Due to its artisanal manufacture, this product will present variations in caliber, flatness, straightness, texture, design and shade. These special variations give the product unique characteristics and a personality all its own. No two pieces are the same. It is imperative to mix tiles from different boxes during installation. This product is most beautifully installed with a wide, irregular, and artisanal grout joint. We do not recommend installing these tiles in a wet or splash area. The surface is textured, sometimes with deep crevices, so occasionally there may be pinpoints which are not completely covered in glaze. If you choose to install in a wet or splash area nonetheless, a waterproof membrane is required prior to installation, and grouting and sealing will be necessary. We recommend using a grout color which matches the tile color. Contrasting color, dark or black grout is not advisable.

Revestimiento: Capri - Sassani Pavimento: Capri - Chiazza Marino / 14x16 cm / 5 1/2" x 6"

*This product will present variations in thickness and texture. The edges of these tiles have no bevel, which is an intentional feature added to provoke an antiqued look and accentuate the beauty of the tile. These variations give the product unique characteristics and personality. They are part of its charm and are reminiscent of hydraulic cement (encaustic) tiles, zellige, and reclaimed tiles from the past. This product is most beautifully installed with a grout joint of 1/4" (6 mm). We recommend using a grout color which matches or is slightly darker than the tile color for the most elegant appearance or a neutral grey for a more rustic appearance.*

Passion for handmade tile.

REVESTIMIENTO / WHITE BODY GLAZED WALL TILE / FAÏENCE

Revestimiento: Manara Clay - Temara Taupe / 10x10 cm / 4"x4"

*Due to its artisanal manufacture, this product will present variations in caliber, flatness, straightness, texture, design and shade. These special variations give the product unique characteristics and a personality all its own. Most of the glazes are special, saturated glazes that will eventually produce a beautiful and intentional crackle. This is inherent to the tile and part of its charm. This product can be dry-stacked or grouted. When installing in a wet area, a waterproof membrane is required prior to installation, and grouting and sealing will be necessary. We recommend using a grout color which matches the tile color. Contrasting color grout is not advisable. Due to the nature of the glaze, dark or black grout is not advised with lighter or white tiles.*

*This product will present variations in thickness and texture. The edges of these tiles have no bevel, which is an intentional feature added to provoke an antiqued look and accentuate the beauty of the tile. These variations give the product unique characteristics and personality. They are part of its charm and are reminiscent of hydraulic cement (encaustic) tiles, zellige, and reclaimed tiles from the past. This product is most beautifully installed with a grout joint of 1/4" (6 mm). We recommend using a grout color which matches or is slightly darker than the tile color for the most elegant appearance or a neutral grey for a more rustic appearance.*

REVESTIMIENTO / WHITE BODY GLAZED WALL TILE / FAÏENCE

White body, glazed, double-fired ceramic wall tile with an absorption of over 10%. Each piece is unique. Due to its artisanal manufacture, this product will present variations in caliber, flatness, straightness, texture, design and shade. These special variations give the product unique characteristics and a personality all its own. No two pieces are the same. It is imperative to mix tiles from different boxes during installation. This product is most beautifully installed with a wide, irregular, and artisanal grout joint. We do not recommend installing these tiles in a wet or splash area. The surface is textured, sometimes with deep crevices, so occasionally there may be pinpoints which are not completely covered in glaze. If you choose to install in a wet or splash area nonetheless, a waterproof membrane is required prior to installation, and grouting and sealing will be necessary. We recommend using a grout color which matches the tile color. Contrasting color, dark or black grout is not advisable.

## \* RECOMENDACIONES Y CONSIDERACIONES ESPECIALES / RECOMMENDATIONS AND SPECIAL CONSIDERATIONS / RECOMMANDATIONS ET CONSIDÉRATIONS SPÉCIALES

---

### Alhambra, Bohemia, Florentina, Gabana, Grafton, Habitanía & Loft Floor

---

**Special weathering techniques on the surface and edges lend this collection the special patina of a well-worn and well-loved home. This is an intentional feature added to provoke an antiqued look and accentuate the beauty of the tile. This is part of its charm and is reminiscent of zellige, encaustic, and reclaimed tiles of the past. There are several different graphics and the fact that each tile is different is intentional.**

Aplicamos técnicas especiales de desgaste en la superficie y en los bordes de las piezas que otorgan a esta colección el acabado especial propio de un hogar bien usado y bien querido. Esta es una característica añadida intencionalmente para provocar un aspecto envejecido y resaltar la belleza del azulejo. Forma parte de su encanto y recuerda a los azulejos zellige y a las baldosas de cemento hidráulico del pasado. Hay varias gráficas diferentes y el hecho de que cada azulejo sea distinto es intencional.

*Nous appliquons des techniques spéciales de vieillissement à la surface et aux bords des pièces conférant à cette collection la patine particulière d'une maison bien entretenue et aimée. Il s'agit d'une caractéristique voulue ajoutée pour donner un aspect vieilli et mettre en valeur la beauté du carreau. Faisant partie de son charme, elle n'est pas sans rappeler les carreaux de zellige et les carreaux de ciment hydraulique d'autrefois. Il existe plusieurs graphismes différents et le fait que chaque carreau soit différent est intentionnel.*

### Amantina, Capri, Marlow, Terra & Veranda

---

**Indoor-outdoor porcelain; home, pool and garden collection for walls and floors.**

Porcelánico apto para el interior y el exterior; hogar, piscina y jardín; paredes y suelos.

*Grès cérame applicable aussi bien à l'intérieur qu'à l'extérieur; maison, piscine et jardin; murs et sols.*

### Amantina

---

**Each color of the Amantina decors has 5 different glossy circular designs placed on 25 background swirl patterns. This creates a design composition of 25 different pieces which are randomly mixed in the boxes.**

Cada modelo de los decorados del Amantina tiene 5 diseños circulares con brillo diferentes, colocados sobre 25 fondos con apariencia de remolinos. Esto crea un lienzo de 25 piezas diferentes que se mezclan aleatoriamente en las cajas.

*Les décors de chaque couleur de l'Amantina comportent 5 motifs de paillettes circulaires différents placés sur 25 fonds à texture tourbillonnante. Cela crée un tapis en céramique de 25 pièces différentes mélangées au hasard dans les boîtes.*

### Brick 20 & Toscana Brick

**White body, glazed, double-fired ceramic wall tile with an absorption of over 10%. Each piece is unique. Due to its artisanal manufacture, this product will present variations in caliber, flatness, straightness, texture, design and shade. These special variations give the product unique characteristics and a personality all its own. No two pieces are the same. It is imperative to mix tiles from different boxes during installation. This product is most beautifully installed with a wide, irregular, and artisanal grout joint. We do not recommend installing these tiles in a wet or splash area. The surface is textured, sometimes with deep crevices, so occasionally there may be pinpoints which are not completely covered in glaze. If you choose to install in a wet or splash area nonetheless, a waterproof membrane is required prior to installation, and grouting and sealing will be necessary. We recommend using a grout color which matches the tile color. Contrasting color, dark or black grout is not advisable.**

Azulejos de revestimiento de pasta blanca, de doble cocción y esmaltados con una absorción superior al 10%. Cada pieza es única. Debido a su fabricación artesanal, este producto presentará variaciones en calibre, planitud, rectitud, textura, diseño y tono. Estas variaciones especiales le otorgan al producto características únicas y una personalidad propia. No hay dos piezas iguales. Es imprescindible mezclar azulejos de diferentes cajas durante la instalación. La forma más bonita de instalar este producto es con una junta ancha, irregular y artesanal. No recomendamos instalar estos azulejos en zonas húmedas o donde se puedan mojar. La superficie es texturizada, a veces presenta hendiduras profundas, por lo que ocasionalmente puede haber puntos que no están completamente cubiertos de esmalte. Si decides instalarlos en una zona húmeda o donde se puedan mojar, es necesario utilizar una membrana impermeable antes de la instalación, y será necesario rejuntar y sellar. Recomendamos usar un material de rejuntado que sea del mismo color que los azulejos. No se recomienda usar material de rejuntado que contraste, oscuro o negro.

*Carrelages muraux en pâte blanche, bicusson et émaillés avec une absorption supérieure à 10%. Chaque pièce est unique. De par sa fabrication artisanale, ce produit présentera des variations de calibre, de planéité, de rectitude, de texture, de design et de tonalité. Ces variations particulières confèrent au produit des caractéristiques uniques et sa propre personnalité. Il n'y a pas deux pièces identiques. Il est indispensable de mélanger les carreaux de différentes boîtes lors de la pose. La plus belle façon d'installer ce produit est d'utiliser un joint large, irrégulier et fait à la main. Nous déconseillons de poser ces carreaux dans des zones humides ou à des endroits en contact avec l'eau. La surface est texturée, parfois avec de profondes fentes, de sorte qu'il peut parfois y avoir des points qui ne seront pas entièrement recouverts par l'émail. Si vous décidez de les poser à un endroit humide ou un endroit en contact avec l'eau, il faudra poser une membrane imperméable avant la pose, il faudra ensuite appliquer le joint et sceller. Nous recommandons l'utilisation d'un joint de la même couleur que les carreaux. L'utilisation d'un joint dont la couleur contraste avec celle des carreaux, foncé ou noir n'est pas recommandé.*

### Capri, Marlow & Terra

---

**This product will present variations in thickness and texture. The edges of these tiles have no bevel, which is an intentional feature added to provoke an antiqued look and accentuate the beauty of the tile. These variations give the product unique characteristics and personality. They are part of its charm and are reminiscent of hydraulic cement (encaustic) tiles, zellige, and reclaimed tiles from the past. This product is most beautifully installed with a grout joint of ¼” (6 mm). We recommend using a grout color which matches or is slightly darker than the tile color for the most elegant appearance or a neutral grey for a more rustic appearance.**

Este producto presentará variaciones en grosor y textura. Los cantos de estos azulejos no tienen bisel; es una característica intencional añadida para provocar un aspecto envejecido y resaltar la belleza del azulejo. Estas variaciones le otorgan al producto características especiales y gran personalidad. Forman parte de su encanto y recuerdan al zellige y a los azulejos de cemento hidráulico del pasado. La forma más bonita de instalar este producto es con una junta de colocación de ¼” (6 mm). Recomendamos usar un material de rejuntado de un color que coincida o sea ligeramente más oscuro que el color del azulejo para un aspecto más elegante, o un gris neutro para un aspecto más rústico.

*Ce produit présentera des variations en épaisseur et en texture. Les bords de ces carreaux ne sont pas biseautés ; il s'agit d'une caractéristique voulue ajoutée pour donner un aspect vieilli et mettre en valeur la beauté du carreau. Ces variations confèrent au produit des caractéristiques particulières et une grande personnalité. Faisant partie de son charme, elles rappellent le zellige et les carreaux en ciment hydraulique d'autrefois. La plus belle façon d'installer ce produit est d'utiliser un joint de pose de ¼” (6 mm). Nous conseillons d'utiliser un matériau pour le joint d'une couleur assortie ou légèrement plus foncée que la couleur du carrelage pour un aspect plus élégant, ou un gris neutre pour un aspect plus rustique.*

### Florentina

---

**The Celeste has a small vine and 2 different flowers which connect the pieces in a continuous pattern. Take any random piece from the box and turn it in your hand until it matches up with the surrounding pieces. The Celeste can also be installed as a patchwork mix with no continuity among the pieces.**

El modelo Celeste tiene una pequeña enredadera y 2 flores diferentes que conectan los azulejos en un patrón continuo. Coge cualquier pieza al azar de la caja y gírala en la mano hasta que el diseño encaje con las piezas que la rodean. El Celeste también puede instalarse de manera aleatoria como un patchwork mix sin continuidad entre las piezas.

*Le modèle Celeste présente une petite plante grimpante et 2 fleurs différentes qui relient les carreaux selon un motif continu. Prenez n'importe quelle pièce au hasard dans la boîte et faites la tourner sur votre main jusqu'à ce que le motif s'adapte aux pièces qui l'entourent. Le Celeste peut également être posé de manière aléatoire en patchwork mix sans continuité entre les pièces.*

## Manara Clay

**Due to its artisanal manufacture, this product will present variations in caliber, flatness, straightness, texture, design and shade. These special variations give the product unique characteristics and a personality all its own. Most of the glazes are special, saturated glazes that will eventually produce a beautiful and intentional crackle. This is inherent to the tile and part of its charm. This product can be dry-stacked or grouted. When installing in a wet area, a waterproof membrane is required prior to installation, and grouting and sealing will be necessary. We recommend using a grout color which matches the tile color. Contrasting color grout is not advisable. Due to the nature of the glaze, dark or black grout is not advised with lighter or white tiles.**

Debido a su fabricación artesanal, este producto presentará variaciones de calibre, planitud, rectitud, textura, diseño y tono. Estas variaciones especiales le dan al producto unas características únicas y una personalidad propia. La mayor parte de los esmaltes son especiales, saturados fundentes que producen un atractivo e intencionado craquelé –ligero cuarteo en la superficie vítrea de la pieza–. Esto es inherente a la baldosa y parte de su encanto. Este producto se puede instalar sin junta y sin rejuntar, o con junta de colocación y rejuntado. Si se coloca en una zona húmeda, o donde pudiera haber salpicaduras, primero es necesario instalar una membrana impermeable, y posteriormente se debe rejuntar y sellar la instalación. Recomendamos usar un material de rejuntado que sea del mismo color que los azulejos. No aconsejamos usar material de rejuntado que sea de un color que contraste con el de los azulejos. Debido a la naturaleza del esmalte, no se recomienda usar material de rejuntado oscuro o negro con azulejos claros o blancos.

*De par sa fabrication artisanale, ce produit présentera des variations de calibre, de planéité, de rectitude, de texture, de design et de tonalité. Ces variations particulières confèrent au produit des caractéristiques uniques et sa propre personnalité. La plupart des émaux sont spéciaux, des fondants saturés produisant un craquelé attrayant et intentionnel –une légère lézarde à la surface vitreuse de la pièce–. Ceci est inhérent au carrelage et fait partie de son charme. Ce produit peut être empilé à sec, ou avec du coulis. Si celui-ci est placé dans une zone humide ou dans un endroit exposé aux éclaboussures, il faut d'abord installer une membrane imperméable, puis appliquer le joint et sceller l'installation. Nous recommandons l'utilisation d'un joint de la même couleur que les carreaux. Nous déconseillons l'utilisation d'un joint dont la couleur contraste avec celle des carreaux. En raison de la nature de l'émail, l'utilisation d'un joint foncé ou noir n'est pas recommandé avec des carreaux clairs ou blancs.*
